Training on Preparing XBRL Financial Statements

With effect from 3 March 2014, Singapore incorporated companies which are required to file financial statements with the Accounting and Corporate Regulatory Authority (ACRA) will be required to file their financial statements in XBRL, in accordance with the revised XBRL filing requirements under ACRA's BizFin^x filing system. The BizFin^x preparation tool, an offline software application provided by ACRA free of charge, is available to help companies to prepare the XBRL financial statements in accordance with the revised filing requirements. The preparation tool is available for download at www.bizfinx.gov.sg .

To help preparers learn more about the revised filing requirements and how to use the BizFin^x preparation tool, CrimsonLogic, the technology operator and IRIS Business Services, the software developer of BizFin^x will be conducting   training courses, on optimising the use of the preparation tool to ensure smooth filing of their financial statements.

The course will cover the latest updates to the XBRL tool, review of the taxonomy data elements, customising templates and a detailed hands-on session. Training subsidy of up to 50% provided by ACRA is available for eligible participants.
