

## CPF Employer News

Dear Employer

### **Requirement to provide accurate wage information**

Thank you for contributing to your employees' CPF accounts.

You are required to provide accurate wage information of your employees when making your monthly CPF submission. This is important as it ensures that Government payout schemes can be correctly paid out based on your employees' wages.

Currently, more than 90% of employers are already submitting wage information of their employee(s) in their monthly CPF contributions. It is an offence under the CPF Act to knowingly submit inaccurate wage information. Periodic audits and investigations will be conducted by us to check on the accuracy of wage information submitted.

Here are some tips to help you in submitting the accurate wage information of your employees:

- State the correct amount of Ordinary Wage and Additional Wage when making CPF submissions; and
- State the actual full wages earned by the employee for the month of work

We have prepared some examples of providing correct wage information for your reference. For more information, click [here](#).

For enquiries on CPF e-Submission, you can contact us via 6220 2340 (Monday to Friday, 8.00am to 5.30pm) or [cpf.gov.sg/writetous](http://cpf.gov.sg/writetous).

Thank you for contributing to your employees' retirement savings and stay safe.

Yours faithfully,

Central Provident Fund Board
